JAVA INTERNAL USE SOURCE LICENSE

1.0   LICENSE GRANT

1.1   Sun grants to you ("Licensee") a nontransferable, nonexclusive, royalty–free, limited license to (i) use the Java source code ("Licensed Software") for internal evaluation, research, educational purposes only, and not for productive use, (ii) modify the Licensed Software to create derivative works, including ports, and (iii) compile the Licensed Software and derivative works prepared in accordance with subsection (ii). Other than the limited rights granted in this License, Licensee acquires no right, title or interest in or to the Licensed Software, and Licensee shall have no right to distribute the LIcensed Software, i.e. the Source Code, except that Licensee may post to the internet only those modifications to the Source Code created by Licensee during porting (i.e., diffs). Sun owns all modifications, enhancements and bug fixes made by or for Licensee; provided that Licensee shall retain all rights to any independently developed software, such as applications, developed by or for Licensee.

1.2   Sun grants to Licensee the royalty–free right to distribute binary derived and compiled from the Licensed Software ("Derived Binaries"), in accordance with the terms and conditions of this License provided, that: (i) Derived Binaries are not bundled, combined or associated in any way with a product, (ii) there is no charge associated with such distribution, (iii) Derived Binaries must be compatible with the then–current version of the publicly available test suite supplied by Sun which verifies Java compatibility ("Test Suite"), and (iv) in the event Licensee creates additional classes or otherwise extends the public programming interface (AAPI), Licensee must publish the specification for such extensions for use by third party developers of Java–based software. In the event such distribution is fee–based, associated with a product, or designed for productive internal use, Licensee must execute a commercial license agreement with Sun.

1.3   This License, including any licenses and rights granted hereunder, the Licensed Software and Derived Binaries may not be sold, leased, assigned, sublicensed or otherwise transferred, in whole or in part, by Licensee. Sun is under no obligation to provide maintenance or support for the Licensed Software, or to notify Licensee or upgrades to the Test Suites or Licensed Software.

2.0   COPYRIGHTS AND TRADEMARKS

2.1   Licensee shall reproduce and apply any copyright or other proprietary rights notices included on or embedded in the Licensed Software to any copies of the Licensed Software or Derived Binaries, in whole or in part, in any form. Licensee shall have no right to use any Sun trademarks, trade names or trade dress absent a separate written agreement between Sun and Licensee.

2.2   In order to preserve Java compatibility across all platforms, Derived Binaries must pass the then–current version of Sun's Java Test Suite, and must remain compatible with subsequent versions of the Test Suites and upgraded Licensed Software. If Licensee wants to use Sun's trademarks or compatibility logos for Java, it must execute a separate trademark license agreement with Sun.

3.0   FEES

Use of the Licensed Software in accordance with the terms of this License shall not require payment of a license fee.

4.0   TERM AND TERMINATION

4.1   This License shall commence on the date it is signed by Sun, and expire five (5) years thereafter.

4.2   Sun may immediately terminate this License upon written notice to Licensee, at Sun's option, if Licensee fails to comply with any of the material terms or conditions of this License. Upon termination of this License, use of all Licensed Software by Licensee shall be immediately discontinued and the license and rights granted hereunder shall expire.

5.0   DISCLAIMER OF WARRANTY

5.1   The Licensed Software is provided "AS IS" and without any warranty of any kind.

5.2   SUN DOES NOT MAKE AND HEREBY DISCLAIMS ANY EXPRESS OR IMPLIED WARRANTIES INCLUDING, BUT NOT LIMITED TO, THE WARRANTIES OF NON–INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, OR ARISING FROM A COURSE OF DEALING, USAGE OR TRADE PRACTICE.

6.0   LIMITATION OF LIABILITY

6.1   In no event will Sun be liable for any lost revenues, data, or profits, or special, indirect or consequential damages, even if Sun has been advised of the possibility or probability of such damages. Sun's maximum liability for damages shall be limited to the License Fee, if any, required under Section 3.0 for the particular Licensed Software which caused the damages.

6.2   The Licensed Software is not fault–tolerant and is not designed, manufactured or intended for use or resale as on–line control equipment in hazardous environments requiring fail–safe performance, such as in the operation of nuclear facilities, aircraft navigation or communication systems, air traffic control, direct life support machines, or weapons systems, in which the failure of the Licensed Software or derived binaries could lead directly to death, personal injury, or severe physical or environmental damage ("High Risk Activities"). Sun specifically disclaims any express or implied warranty of fitness for High Risk Activities. Licensee will not knowingly use, distribute or resell the Licensed Software or derived binaries for High Risk Activities and will ensure that its customers and end–users of its products are provided with a copy of the notice specified in the first sentence of this Section 6.2.

7.0.   CONFIDENTIAL INFORMATION.

The Licensed Software is the confidential and proprietary information of Sun Microsystems, Inc. ("Confidential Information"). Licensee shall not disclose Confidential Information and shall use it only for purposes specifically contemplated by this License. This License will not affect any other confidential disclosure agreement between the parties.

8.0   EXPORT

Licensee shall not export, re–export or transfer, whether directly or indirectly, the Licensed Software or Binary Derivative or direct products thereof, to any person or company who is a legal resident or is controlled by a legal resident of any proscribed country listed in the U.S. Export Administration Regulations (or any equivalent thereof) unless properly authorized by the U.S. Government.

9.0   U.S. GOVERNMENT RESTRICTED RIGHTS

The Licensed Software is provided with RESTRICTED RIGHTS. Use, duplication, or disclosure by the Government is subject to the restrictions as set forth in subparagraph (c) (1) (ii) of the Rights in Technical Data and Computer Software Clause as DFARS 252.227–7013 and FAR 52.227–19, as applicable. Manufacturer is Sun Microsystems, Inc. 2550 Garcia Avenue, Mountain View, California 94043.

10.0   GOVERNING LAW

Any action related to this License will be governed by California law, excluding choice of law rules.
